HOW THE PROGRAM RAISES FUNDS FOR YOUR ORGANIZATION

AN EXAMPLE BASED ON THE 25 SHIRT MINIMUM ORDER

RAISE FUNDS FOR YOUR ORGANIZATION!

Inspiration for the God and Country design has come in part from Shelly and Roger Diehm,whome have displayed six feet tall granite tablets engraved with the Ten Commandments in a store plaza - reaffirming that man is endowed by his creator with certain unalienable rights and that the many lives spent defending Americas freedoms should be, and are remembered in our most cherished symbols, document, and leaders. The flag draped coffin is as much a reason to celebrate as morn for each solders life is celebrated in our very existance.

OUR MISSION

We have been called to help put America back to work and believe we can with your help! **We challenge you to participate.**

We are one of the nation's leading companies in garment imprinting, embroidery, and ad specialties – Screen Works has created a charitable division dedicated to supplying non-profit organizations with the means to raise funds for their various causes and allow corporations to participate too, at our cost to help put America back to work with American made garments. We have lost 580 garment mills since 1997 and we are down to using just a couple at this time, we can reverse this trend if we pull together, as Americans, like we did at 9/11. On September 11, 2001, we as Americans proved it could be done! A very sad day and time for the United States, but once again Screen Works was already looking for ways to help. Three hours after 9/11 we had our internationally recognized, **"United We Stand"** design! We dedicated our entire company to help those affected by the September 11th attacks. With all the support from the international and local communities and the Great volunteers that helped make this possible. **WE THANK YOU!** By October, Screen Works had raised enough money to donate one million dollars to the American Red Cross, National Disaster Relief fund. Today's challenge is helping to put America back to work, a challenge that will only be met by us working together. No one cause, group or organization can put America back to work alone – but together with God's guidance – our resolve will make a difference. Will you help?

Our military, patriotic and religious designs promote the determination and Unity of Americans and cherishing our freedom and the dignity and worth of each and every individual. Our K.I.D.S (Kids Identity Safety) program is a mentor program designed for schools, as a fund raiser or a corporate challenge for preschoolers thru 3rd grade – encouraging children to learn their name, address and phone number. It is our vision for every child around the world to participate in this program. As this program grows we will need to export American made garments to other countries participating in this program. This means new much needed jobs for American workers, garment mills and printing facilities across America.

To all my Corporate and Christian friends, God has called me to do this. This is not just about Screen Works but it's about all of us in the printing and garment industry to unite together to print this program to help our fellow Americans. This will lift up our industry and we pray other industries will follow suit to help put America back to work. Amen! We have created a custom program just for other industries that want to help put America back to work. [We] can do all things through Christ which strengthens [us]. Phil. 4:13 Amen. If you want to know how you can participate or hear more of my testimony of what God has called me to do, and how God raised me in three days, please feel free to contact me via e-mail using " jeff@screenworksinc.com. Additional information on our programs may also be found on our web site at, www.UnitedWeStandforAmerica.org.

Sincerely,

Jeff Cottrell
President, Screen Works Inc.

How the Program Supports Americans

ALL of the shirts will be 100% American made and printed by Americans. Putting Americans back to work! U.S. employees are losing their jobs to foreign production companies daily. For example, there are only a handful of American Textile companies left in the USA!

U.S. Textile mills closed since 1997												
1997	1998	1999	2000	2001	2002	2003	2004	2005	2006	2007	2008	'97 to date
21	34	42	38	124	48	82	42	50	72	27	2	580

We can reverse this trend by pulling together as Americans and bring back America's Garment Mills.
